

Blurting worksheet

Close your notes before you start. Write everything you remember, in any order, then check.

1. Topic

One bounded topic: a chapter, a lecture, a system. Something you could cover on one page.

2. Everything you remember

Notes closed. Definitions, examples, how things connect. Do not stop to check.

3. What you missed

Now open your notes. Add what you left out, in a different color.

4. Tomorrow's questions

Turn each miss into a question for a flashcard.

Before you finish

- ☐ I wrote before I looked at anything.
- ☐ I checked every line against the source.
- ☐ Every miss is now a question for tomorrow.
- ☐ I will blurt this topic again in a few days.
